

## Matters about Home.

### Notice to Mail Subscribers.

Mail subscribers will please remember that we are not responsible for the loss of the paper at the expiration of the time paid for. About a month before his time expires we send each subscriber a bill for the ensuing year. This will give time to renew the subscription and ensure the regular continuance of the paper.

Money may be sent by mail at our risk and receipts will be returned in the paper.

### Lost!

"Our sufferings are intolerable!" We have lost, or some daring individual has "felicitously abstracted," our knife. If any one has found such an instrument, with a shell handle, one broken blade, and three others considerably worn for wear, we respectfully solicit him to return the same forthwith, and receive as a reward our thanks and a first-rate "puff."

N. B. We never know anybody to prosper, who kept anything belonging to an Editor.

### Another Warning—Death from Intemperance.

On Tuesday morning about 6 o'clock, a man named WM. EAKIN was found in a dying condition, lying on the floor of the unoccupied warehouse in Lilly's Block, next door to the Drug Store of Vickers & Uhrig. All efforts to restore him proved unavailing, and he died about 4 o'clock in the afternoon. An inquest was held on Tuesday evening, but the verdict had not been rendered yesterday morning. We learn, however, that the physicians who examined the body found no external marks of violence sufficient to have caused death. There was a slight wound on the back of his head, and another on the large toe of one foot, but no other wounds or bruises. The evidence elicited at the inquest went to show that when last seen, about 11 o'clock on the night previous, the deceased was lying deeply intoxicated, on a pile of wheat in the second story of the warehouse, where he was in the habit of sleeping. He had long been addicted to intemperance, and the supposition is that he died in an apoplectic fit. He was unmarried, about 30 years of age, most respectable connected, and might have been a useful citizen, but for the fatal vice which ruins both body and soul of its victims, and brought him to a terrible and untimely end.

P. S. We have just learned that the verdict of the coroner's jury was, "Death from Apoplexy produced by Intemperance."

### Highland Co. Agricultural Society.

#### New Fair Grounds.

At the election for Officers, held on the last day of the Fair, the following gentlemen were chosen:

President—Gen. J. W. Pope.

Vice President—John H. Jolly.

Treasurer—John Barry.

Secretary—R. D. Lilley, Jr.

Board of Directors—Ben. Conard, J. A. Patterson, W. H. Trimble, T. Scott Patton, T. M. Miller.

We are pleased to learn that the new Board are in favor of purchasing more spacious and suitable grounds for the Annual Fair of the Society, having been chosen with special reference to that object. The present grounds are admitted to be too small for the convenient exhibition of stock and other articles, and for the proper accommodation of the people. At the late Fair, the attendance was so large on the second day that the riding and driving in the horse-rings was attended with great discomfort, and considerable danger to the spectators, owing to the small dimensions of the ring, and the undulating nature of the ground compelling the people to crowd close around it. It was extremely mortifying to hear the unfavorable comparisons which were drawn by visitors between our Fair grounds and those of Clermont, Clinton, Brown, and other neighboring counties. We are glad to learn that our farmers are determined that Highland shall not continue behind her neighbors in this respect, as she is not in any other.

The new Board of Directors of the Agricultural Society will doubtless take prompt measures to carry out the wishes of its members at the earliest period practicable, by the purchase of new grounds, which shall be of ample extent, and every way suited to the purposes of the Society.

We see that a meeting of the Officers and the Board of Directors is called for Saturday, the 24th inst., at the office of the County Auditor.

### "Some Pumpkins."

The Marietta Intelligencer, noticing the big pumpkins exhibited at our County Fair, says that one weighing 150 lbs. was exhibited at the Fair of Washington county. It was raised in Parkersburg, Va., by the editor of the Intelligencer.

A correspondent of the Athens Messenger tells of a pumpkin raised in Putnam county, Indiana, and exhibited at the late Fair, which weighed 212 lbs.

After these extraordinary specimens of pumpkin productiveness, the following brace of pumpkin stories hardly seem as "unbelievable" as they would otherwise be considered.

An exchange speaks of a pumpkin weighing three hundred feet long, and having a pumpkin every four feet!

Another exchange, noticing this, promises to "send some shunks," and adds: "A friend on Scott's Run says he has a vine a mile and a half long, running to a hollow, and nine acres of pumpkin pie, three feet deep, already baked, at the end of it!"

## Hillsboro Lyceum.

Owing to the disagreeable weather on Friday night the opening Lecture before the Lyceum was not as well attended as it doubtless would have been under more favorable circumstances. The Lecture of Rev. Mr. ROBERTS is spoken of by those who heard it, of whom we had not the pleasure of being one.

Previous to the Lecture the election of officers was held, and resulted in the choice of S. E. HIBBEN, Esq., as President, R. D. Lilley, Jr., Secretary and Treasurer, and Dr. Jno. M. Johnston, Jno. A. Trimble and J. M. Boyd, Committee of Arrangements.

The Lecture To-Morrow Night, (Friday) will be delivered by A. S. BOYS, Esq. Subject: "Roman and Grecian Society."

### A Great Rain.

The greatest rain we have had for several years fell during the latter part of last week and the beginning of this. It commenced during Wednesday night, and continued with slight intervals, until Monday afternoon. From Saturday night, till Monday noon, it rained steadily, with the exception of a few hours on Sunday. The quantity of water which fell must have been enormous, but it came so gently and gradually that the streams were not flooded so as to cause any serious damage, as far as we have heard.

The storm was general throughout the country, and telegraphic communication with the Eastern cities was entirely suspended during Saturday and Sunday. All the Western rivers have risen, and are now in fine boating order. On Monday night the clouds cleared away, and the weather turned cold, ice half an inch thick being formed during the night.

### Frightful Tornado and Loss of Life and Property.

On Thursday afternoon last, a terrific tornado passed over the Northwestern edge of this county, near Vienna, and taking a northeasterly course, swept the southern portion of Fayette and the northern part of Ross counties. About a mile west of Martinsburg, Fayette county, the dwelling house of Mr. JOHN DOSTER, a large two story frame, was completely demolished, and Mr. Doster so severely injured that he died in fifteen minutes after he was taken up. The rest of the family were saved by taking refuge in the cellar. Mr. D. had come out of the cellar to get something, when the wind struck the house before he could return. His son, aged about 18 was severely injured by a flying timber. A heavy four horse wagon, having about fifty bushels of corn in it, was blown over, the body blown away, has not yet been found, and the fore-wheels carried 400 yards. A carriage belonging to DOSTER was completely demolished. Heavy trees were taken up by the root and carried some distance. Wheat was carried away and corn was husked and shelled.

A man named DOYLE who was riding in a buggy near DOSTER's was blown 300 feet, but was not injured. The buggy was also blown away. The hurricane passed north of Mr. Todhunter's house, carrying his 1½ of their pen. Large quantities of timber were found piled upon the hop-pen.

The hurricane passed north of Frankfort, Ross co., destroying houses, barns, fences, &c.

A two-story dwelling was completely prostrated and eight or ten persons seriously injured. Two ladies, named Claflin and Neal, it is thought will not recover.

We learn by a telegraphic dispatch that on the same afternoon a hurricane passed along the north edge of the village of Crestline, blowing down houses and barns and more or less injuring several persons. It then took an easterly direction, doing considerable damage.

Mr. Henry Shaw, a wealthy gentleman of St. Louis has declared his intention to rent a vacant lot and fill it with wood for the benefit of the poor of St. Louis during the coming season. His is a noble example.

### THANKSGIVING.

PROCLAMATION BY THE GOVERNOR.

In accordance with a venerable usage, and in compliance with a just public sentiment, I invite the People of Ohio to observe Thursday, the 24th of the present month of November, as a day of Public Thanksgiving to ALMIGHTY GOD.

To HIM, who hath visited the Earth and blessed it and hath made it very fruitful:

—to HIM, who hath crowned the year with His Goodness, making our valleys to stand thick with corn, and filling our barns with plenty;

—to HIM, who hath greatly blessed us in the increase of the ground, and in the gathering of the fruits thereof;

—to HIM, who hath defended us from the Pestilence that walketh in darkness, and from the sickness that destroyeth at noonday;

—to HIM, who hath given us peace in all our borders, protecting us alike from foreign invasion and internal commotion;

—to HIM, let us all, assembling in places of public worship, or gathering around domestic altars, present sincere offerings of humble adoration and grateful praise; remembering that, as we, being needy, have received abundantly of His bounty, so ought we, cheerfully, to give of our abundance to them who need; and invoking, earnestly, His gracious favor, that we may walk before HIM, continually in the way of His commandments, to the end that His blessing may remain upon us, and upon the good land which He hath given us, forever.

Given at the city of Columbus, this 15th day of November, A.D. 1857.

By the Governor.

S. P. CHASE.

J. H. BAKER, Secretary of State.

## MORE RIOTING IN BALTIMORE.

The late election in Baltimore was marked by bloodshed and violence. One man, an Irishman, was set upon by a gang of rowdies, and shot so that he will probably die. Another was stabbed severely, and many others were knocked down and beaten in various parts of the city. It is charged that many of the naturalized citizens were not permitted to vote, and the heavy American majority in the city to confirm it. Such proceedings are disgraceful in the highest degree, and should not be countenanced by good citizens.

### Money Matters.

The improvement in money and business matters noticed in our last, still continues, and confidence is being slowly re-established at the leading commercial centres of the country. Money is reported more plenty, while the rates of discount and exchange have slightly declined and show a further downward tendency. Exchange on New York was plenty and dull at Cincinnati, on Monday last, at 4 per cent. premium. Gold has declined to 2½ per cent. premium. We trust that these signs of improvement may not prove deceptive, and that business will be long resume its wonted activity in every department.

The Cincinnati Gazette of Monday says:

As already remarked, as matters now stand the prospects are favorable. People, instead of standing still, and erecting barricades for self-protection, are preparing to go ahead, not as usual, for it would be a greater calamity than has yet befallen the country, if the work of inflation should again be undertaken, but to go ahead with their business upon a contracted, safe and legitimate scale. The produce markets are getting into shape. The unnatural decline that was established under the money pressure is being recovered; foreign exports are being resumed, (but foreign imports are not yet will not be, for many months to come, otherwise than very light); capitalists begin to show a disposition to invest in good business paper; banks are arranging for an expansion; and rates of discount tend downward.

These are the leading features that characterize the movements in commercial and financial matters, at present. They are encouraging, and if the growth of confidence, which is now progressing, is not further interfered with, the affairs of the country will work into a tolerably favorable position within the next thirty or sixty days.

### THE MARKETS.

HILLSBORO, Nov. 10, 1857.

WHEAT—The late weather since our last report has checked receipts. Prices are slightly higher than our last quotations, and 50-55¢ may now be called the range of the market.

BEEF CATTLE have declined considerably. Butchers are now paying \$4.50 per 100 lbs. net.

SUGAR and MOLASSES are a little lower. We quote sugar at 10-12½¢, N. O. Molasses 30-35¢.

WHITE BEANS are plenty and dull at \$1.25.

EGGS are in demand at 10¢.

FLOUR is lower. We now quote \$4 by the barrel, \$4.40 at retail.

BUTTER is scarce, and good brings 10-12½¢.

MOVING RATES—WHEAT—

Flour, 10-12½¢, 3 7-8¢, 10-12½¢, 10-12½¢.

Corn, new, 6-7½¢, 6-7½¢, 6-7½¢.
